Our clients say

"The recent ICB committee governance review has been instrumental in shaping the work to strengthen our overall governance assurance framework. The thorough and collaborative approach provided the Audit Committee and the Executive Team with clear insights and actionable recommendations, enables us to enhance transparency, accountability, and effectiveness across our governance structures. The professionalism and expertise of the MIAA team have been consistently recognised and appreciated by our Board and Audit Committee members."

ICB Leader

"The outcomes of this review have been instrumental in shaping a more robust and transparent governance framework across our organisation. MIAA's collaborative approach and evidence-based recommendations have provided assurance but also served as a catalyst for meaningful change. We are confident that the improvements we are making will contribute to a more resilient and responsive health and care system."
